

Follow these simple steps

Print this page and cut out the ring sizer.

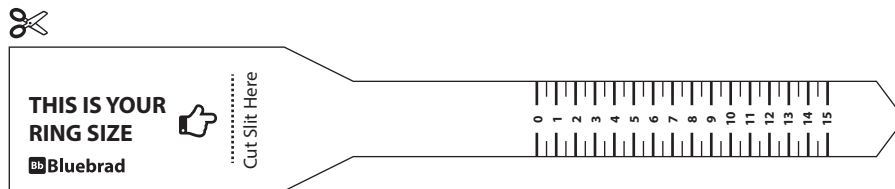

- Cut out the ring sizer on its black boarder.
- On the ring sizer, cut a slit along the dotted line, making a small slot.
- Forming a circle, insert the end of the tab into the slot with the numbers facing outward.
- Place your finger inside the ring sizer and then pull till snug.
- Your ring size is the measurement at the slit on the ring sizing chart.

Has shown above ring size is 7.

I have provided 4 prints that are all the same size, this way you have spares.

*** Please note that the ring size provided is approximate, and for best results, the ring size chart should be printed on US Letter 8.5x11 paper at 100% scale.

From Slit to End it should be 3.5 inches
89mm

This is used to make an accurate measurement
